Re: Property Inspection Selection – Technical Insurance Services

To: Selected Members of NPIP, CIAW, SIAW, USIP, or WCRG

From: Clear Risk Solutions, Risk Management Department

Clear Risk Solutions is the pool administrator of Washington risk pools that provide property and/or general liability coverage to pool members. As part of their administrative services, Clear Risk Solutions will select member organizations on behalf of the pool throughout the year to receive a property inspection at one or more locations.

Inspections are a typical request from coverage providers to ensure they have the necessary information to provide coverage. **Clear Risk Solutions utilizes Technical Insurance Services to perform pool inspections. To maximize efficiency, Technical Insurance Services representatives will contact selected pool members directly to set up a time that works best for both parties.**

When a member organization is selected for inspection, Clear Risk Solutions makes every effort to inform both the member organization and any broker representatives in advance. However, there are instances where a member may receive the inspection agency's communication first. Rest assured, Technical Insurance Services is a trusted partner, and they have been engaged by Clear Risk Solutions to carry out inspections on behalf of the risk pool.

Technical Insurance Services may also request additional contact information from members to ensure an efficient and smooth inspection process. We sincerely appreciate the cooperation of our members and brokers with such requests.

If you have any questions or concerns, please feel free to reach out to our team directly at 509-754-2027 or email our risk management teammates at riskhelp@chooseclear.com. We value clarity and transparency, and we are happy to address any questions that may arise.

Thank you for your support and we look forward to our continued partnership!

Sincerely,

The Clear Risk Solutions team
